6 Assessment

7 LEARNING OUTCOME 1: Technological Processes and Skills

The learner will be able to apply technological processes and skills ethically and responsibly using appropriate information and communication technologies.

7.1 Assessment Standard

We know this when the learner:

- evaluates, with assistance, the product according to the design brief, and suggests improvements and modifications if necessary;
- 1.11 produces simple two-dimensional sketches, enhanced with colour where appropriate;
- 1.12 makes presentations (posters, charts or models) of design ideas and final product, by combining simple two-dimensional text and sketches.
